AV-PRO™ G1100 CONTINUOUS FOLDER

DESCRIPTION

The G1100 variable size press or collator folder with the patented tilt head permits a uniform paper web flow on the delivery table. Larger diameter feed roller and pivot head reduces the possibility of paper jams. The 38" table height and its open design make this folder easy to set up and operate. The G1100 is available as a press folder with a 12" circumference pull cylinder, operating side right or as a collator folder with 12" circumference pin wheels and operating left side.

BASIC FEATURES:

- Production Speed: 650fpm
- 7" to 14" fold size range
- Patented tilt-head adjustment
- Gear side timing belt drive
- 12" pull cylinder or pin wheels
- Two (2) fold size change gears - specify
- 20" maximum web width
- 6" minimum web width
- Roll-away mounting

OPTIONS:

- 360 degree running adjustment
