AV-PRO™ HS500 LABELMASTER

Freestanding operator interface with controls

DESCRIPTION

The HS500 Label Master is a fully programmable, easy to use, portable high speed label applicator. It will provide sustained operation at 500 fpm (depending on label size and repeat length) maintaining an accuracy of +/- 1mm. It can be retrofit to existing equipment or a whole line of paper transport systems is available from Form Flo. Left to right or right to left operation.

GENERAL SPECIFICATIONS:

- Production speed up to 500 fpm, depending on label size and repeat length.
- +/- 1 mm registration accuracy
- 24" label unwind
- 18" carrier rewind
- Freestanding operator interface with controls
- Encoder for web speed
- Print mark reader for label placement
- 1" x 1" to 6" x 8" label size (w x l)
- 3" or 70mm core roll diameter

OPTIONAL EQUIPMENT

- Portable mounting stand
- Fixed mounting bracket

Technical specifications subject to change.
