THE "NEW" REVOLUTIONARY *STRETCH* MONITOR

Length Master is a real time electronic web stretch monitor. It monitors and displays the real time *s-t-r-e-t-c-h* of a web as it's being printed. **Length Master** visually displays a clear, color coded, easy to see set of LEDs. The colored LEDs provide a bright, easy-to-read analog display that can be seen clearly from up to fifty feet away.

Length Master shows the real time condition of the
s-t-r-e-t-c-h
during operation

COUNT MASTER

BATCH MARKER WITH PRESET COUNTER

Introducing our newest addition

"The Form Flo West Batch Marker and Counter"

The counter is a rugged, handsome and extraordinary stable electronic counting unit designed especially for this environment. It is thumb wheel preset by the operator. Both the LED display and the thumb wheel display are large easy to read numerals from a moderate distance. The system will count, up or down, cycle and actuate a spray marker or some other device to the preset; 0 - 9,999. It can be used on any press, collator, folder, sheeter or any equipment that rotates, moves or cycles. Included is a high sensitivity and extremely stable proximity switch. It senses movement, rotational or linear and causes the counter to count. The switch is not affected by dust, dirt or light of any kind. Also included in this package is the Paasche Airbrush spray marker, reservoir and all tubing and fittings necessary for normal installation. Simply supply a 110 VAC outlet and 80 pounds of dry air and your ready for production. Use this package to replace OEM units, replace inoperative units or simply add functionality to existing equipment.

Only.....\$1,075.00

Optional Non-Contact Mini-Beam Electric Eye.....\$95.00
