## LITHO-RESEARCH ROLLER CHEMISTRY

**DRI-ROL-LUBE** is a hydrocarbon paste. It prevents friction burn-up and swelling of ink rollers on idle units running without ink. It is also used to protect the ends of the rollers when running a narrow web or sheet. **DRI-ROL-LUBE** will clean the rollers surface so that stripping and related problems are eliminated **DRI-ROL-LUBE** can be used as a treatment for back cylinders cutting down on ink and gum pickup and prevent rusting. Also, a thin coating applied to paper cutting surfaces will leave a good slip surface for better cutting without staining the paper. It will also prevent rusting on these surfaces.

**3 lb.. CAN....\$25.30    6 lb CAN....\$45.80    31 lb PAIL....\$176.50**

**CLEARZ-IT** is a quick acting, plate cleaner, conditioner and desensitizer for all types of metal offset plates. It removes scum, scratches, surface oxidation, gum streaks, dried ink and finger prints from metal plates. **CLEARZ-IT** can be applied by wipe or spray to quickly and totally open up the non-image area and restore the ink receptive surface. Can also be used to clean plates that have been restored.

**QUART....\$15.65    PINT....\$9.45**

**DEGLAZ-IT** is the latest in hi-tech removal of glaze from litho rollers and blankets. It incorporates a unique scrubbing agent to remove dried ink and glaze with just one application. Rinses off easily with a quality roller and blanket wash. Ideal for color changes.

**16 oz. JAR....\$8.40    5 lb JAR....\$30.45**

**CHROME CLEANER-DESENSITIZER** is designed to keep the surface of the chrome roller in a totally wet condition. this results in an even, thin water film versus a cascade of water being transfered. Allowing water to go forward freely will help prevent ink from backing up into the damping system.

**QUART....\$21.25    PINT....\$11.80**

Ask for a free test sample*

**METER-ROL-CLEAN** is an environmentally friendly cleaner for your metering rollers. **METER-ROL-CLEAN** eliminates the need for cleaners containing ozone depleting substance (ODS) like 1.1.1 trichlorothen or methyl chloride. **METER-ROL-CLEAN** offers a moderate drying speed, a higher flash point and no oily residue on the roller. **METER-ROL-CLEAN** thoroughly cleans rollers of all ink, dried gum, and other contaminates.

**GALLON.....\$19.00**

**ROLL-R-PASTE** is a paste cleaning and conditioning product for rollers and blankets. This domestically made "peanut butter" color paste will shorten the wash-up time for rollers yet gives the deepest of cleaning to the rubber pores. This deep cleaning action removes dried ink (conventional or U.V.), glaze and cleaning deposits allowing for improved long term ink receptivity. Because the **ROLL-R-PASTE** does not contain any abrasives, the product will extend the life of rollers. The product can be used as part of your normal color change procedure or as an addition to your weekly roller maintenance program.

**1 lb Jar....\$11.75    2 lb Jar....\$19.50**

**LRI SILICONE RELEASE** is a new blend of silicones formulated to prevent sticking by reducing the friction between paper and metal or other hard surfaces. In addition, the **LRI SILICONE RELEASE** prevents the buildup of inks, waxes, paper dust, and paper coating on cutting dies, back or transfer cylinders and feed boards. Also areas coated with this clear liquid will clean off easily in much less time. The treated areas on metal will be resistant to rusting and oxidation.

**Pt....\$13.00    Qt....\$15.30    GA.....\$41.00**

**PLATE RESTORER** is an alkaline cleaner designed to penetrate and hydrate aluminum corrosion products and restore the surfaces of aluminum lithographic plates so they can be reused.

**Qt....\$12.70    Pt....\$8.30**

**ADHESIVE COMPOUNDERS**

*Leaders in the Adhesive Industry*

*Stick With ACI .... And Stick With The Best*

**They have what you need or Will Make IT!!!**

**ACI has adhesives specially formulated to work in any system:**

**New or Old, Gear Driven or Air Driven**

**High Speed or Slow Speed**

**and YES on Carbon Paper too**

**One Pail or 50 Pails:**

**Most shipped within 24 hours**

**Special Orders 2 - 3 Days**

**5 gallon, 30 gallon and 55 gallon drums available**

**For a variety of business forms printing:**

**\* Continuous**

**\* Label**

**\* Snap-out**

**\* Mailer**

**\* Envelopes**

**Clients use a variety of ACI adhesives:**

**\* Re-moist**

**\* Cross web**

**\* Fugitive**

**\* In-line**

**\* Padding**

**\* Pressure Sensitive**

**\* Hot Melt**

**\* Custom Mix**

**Product Vs. Application**

### Spray Marker DYE

Specially Formulated For  
*Paasche* Airbrush  
and  
Spraying Equipment  
Three Colors Available

- \* Red \*
- \* Blue \*
- \* Green \*

Color Fast

Safe

Easy To Use

Blue & Green ----- \$ 6.50 Per Pint

Red ----- \$12.00 Per Quart

### Spray Marker UV DYE

Specially Formulated For  
*Paasche* Airbrush  
and  
Spraying Equipment

Only ..... \$100.<sup>00</sup> Per Pint

### Non Distractive

#### Industrial Strength Cleaning Agent

Especially For *Cleaning* Numbering Machines

6 Gallons/Case ..... PW-147 ..... \$ 131.70

5 Gallon Pail ..... PW-147 ..... \$109.75
